WHAT AI LOOKS IN REAL LIFE

"The Embrace is impressive! We got another alert this morning, ran to her room and she was face down with a seizure not breathing.

We repositioned her and she is now pink and sleeping.

It's really a dream come true to be able to be connected to her even when not in the same room! Something we never thought would be possible."

Karina, Mom and Caregiver

Thank you @empatica 🎉🎉🎉 So excited about our new #embracewatch! ❤️
Watch out #epilepsy ...we're catching up to you! 😎

developedfromthenegatives Thank you
#empatica and your #embracewatch for
making bedtime a little less stressful for this
anxious mama! 📱📱❤️😴

empatica_wearables "We got an
#EmbraceWatch for Addi and it has been a
blessing for us" 💜 - Bec, mom.

adalaboyd Anna got to go back to school
this week! We are feeling so much more
secure both night and day with her new
#embracewatch by #empatica for #seizure
monitoring. Anna has adjusted to the watch
right away, but she still doesn't care what
time it is. #amazinganna #techforgood

#specialneedsparenting #tobefour

I feel so much more confident with my
watch on, still not confident enough to leave
the house alone because I'm still very poorly
but to do know somebody will come to help
wherever I am at any time of the day is
great! On Thursday I shall be returning to
slimming world, where I shall hopefully meet
new people whilst improving my confidence
again!

This device has saved my life today.
I beg you, if you have epilepsy, please get one.
They're worth every penny to keep you safe and
give you freedom you deserve.

Anyone with Epilepsy should get this!!
Embrace watch, it captures seizures and
sends phone and sms alerts to people
you chose. It could save a life ❤️
